SEMESTRE I - 2025

UNIT 4	degrees of adjectives review
WEEK 14	TOPICS: instructions and device choosing a printer

LEARNING OBJECTIVES:

At the end of the class, SWBAT:

- 1. Write complete sentences using comparative and superlative forms of common adjectives related to devices***
- 2. Recognize and define key vocabulary related to printers and device instructions***
- 3. Discuss the advantages and disadvantages of different types of printers using target vocabulary and grammar.***

UNIT 4

DISPLAY SCREENS AND ERGONOMICS

WEEK 14

GRAMMAR FOCUS

degrees of adjectives

TOPICS AND VOCABULARY

instructions and
device choosing a
printer

The background is a light blue surface with various school-related items: a pink eraser at the top left, a blue double-headed arrow at the top right, a yellow notepad at the bottom left, a green wavy line at the bottom center, and a blue pen at the bottom right. A white rectangular box with rounded corners is centered on the page.

Comparative & Superlative

POSITIVE DEGREE

used to **describe one device** without comparison.

STRUCTURE:
adjective (basic form)

Examples:

- This printer is **fast**.
- The setup instructions are **easy**.
- The model is **compact**.

COMPARATIVE DEGREE

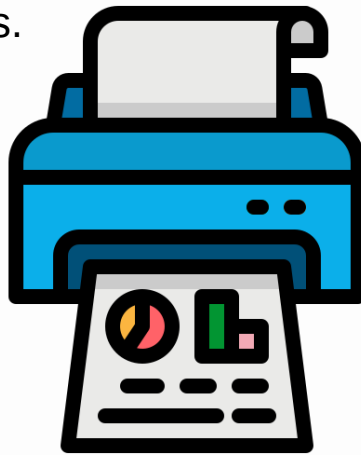

used to **compare two devices** or two sets of instructions.

STRUCTURE:

- **adjective + -er + than** (for short adjectives)
- **more + adjective + than** (for long adjectives)

Examples:

- This printer is **faster than** the older one.
- The instructions for the Canon printer are **easier than** the ones for the Epson.
- The laser printer is **more expensive than** the inkjet printer.
- The new model is **more reliable than** the previous one.

SUPERLATIVE DEGREE

used to show that **one device or instruction set** is the best or most in a group.

Structure:

- **the + adjective + -est** (for short adjectives)
- **the most + adjective** (for long adjectives)

Examples:

- This is **the fastest** printer in the store.
- The Epson EcoTank has **the easiest** instructions to follow.
- That model is **the most popular** among students.
- The HP printer is **the most affordable** option.

<u>RULE</u>	ADJECTIVE	COMPARATIVE	SUPERLATIVE
1 SYLLABLE	small	small <u>er</u>	<u>the</u> small <u>est</u>
1 SYLLABLE "CVC"	flat	flat <u>ter</u>	<u>the</u> flat <u>t</u> <u>est</u>
2* OR MORE SYLLABLES	beautiful	more beautiful	<u>the</u> most beautiful
2-SYLLABLE -y	lazy	^y lazier	^y <u>the</u> lazi <u>e</u> <u>st</u>
IRREGULAR	good	better	the best

**PRACTICE ON
SENTENCE
COMPLETION**

DIRECTIONS:

Complete the sentences
with the correct form of
the ADJECTIVE given in
parentheses.

*Practice
makes
Perfect*

- ☐ The laser printer is _____ (**fast**) than the inkjet printer.
- ☐ This model has the _____ (**clear**) instructions in the manual.
- ☐ The new HP printer is _____ (**expensive**) than the older model.
- ☐ The Canon printer is one of the _____ (**reliable**) printers for office use.
- ☐ The setup guide for the Epson is _____ (**easy**) to follow than the Brother one.
- ☐ That model is the _____ (**compact**) printer we sell.
- ☐ The inkjet printer is usually _____ (**cheap**) than the laser printer.
- ☐ Among all the options, this printer is the _____ (**good**) choice for students.
- ☐ The installation process is _____ (**complicated**) than I expected.
- ☐ This printer is _____ (**quiet**) than the one we tested last week.

READING: **CHOOSING THE RIGHT PRINTER**

READING | CHOOSING THE RIGHT PRINTER

Choosing the right printer can be a challenge, especially with so many models and features available today. Whether you need a printer for school, work, or personal use, it's important to compare your options carefully. Each type of printer has its advantages and disadvantages, and the key is to find one that suits your specific needs.

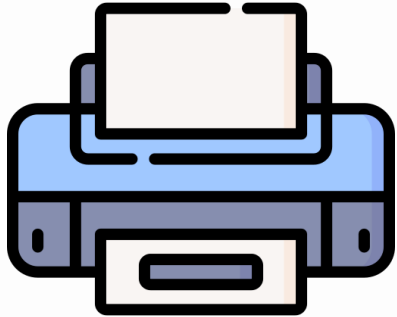

Inkjet printers are among the **cheapest** and **most popular** options for home users. They are especially good for printing **colorful** documents and high-quality photos. Inkjet printers are generally **lighter** and **more compact** than other types, which makes them easy to move and store. However, they are often **slower** than laser printers and may require **more frequent** ink cartridge replacements. This can make them **more expensive** in the long term if you print regularly.

READING | CHOOSING THE RIGHT PRINTER

Laser printers, on the other hand, are known for being **faster**, **more durable**, and **more efficient**, especially when printing large amounts of text. They are the **best** choice for office environments or students who need to print long reports or study materials. Although laser printers are usually **more expensive** to buy at first, their toner lasts longer and reduces printing costs over time. Some modern laser printers even offer color printing, although at a **higher** price.

There are also **multifunction printers** that can print, scan, copy, and fax. These are the **most versatile** devices and are ideal for small businesses or home offices. If space is limited, a multifunction printer may be **better** than buying separate machines for each task.

Before purchasing a printer, it is essential to read product reviews and check the **instruction manual**. Some printers have much **clearer** and **more user-friendly** setup guides than others. The **easiest** printers to install often include **step-by-step** instructions with diagrams, making the process smoother even for beginners. In contrast, some manuals can be **more confusing**, especially if they are poorly translated or lack pictures.

Wireless capability is another feature to consider. A **wireless printer** is often **more convenient** because it allows printing from laptops, tablets, and smartphones without using a cable. However, setting up a wireless connection may be **slightly harder** for users who are not familiar with network settings.

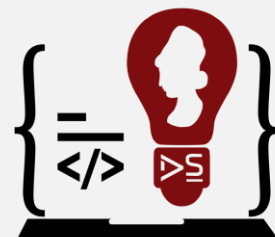

In the end, the **most important** thing is to choose a printer that fits your lifestyle and budget. Think about what you will print most often, how much space you have, and how comfortable you are with technology. By comparing features and reading the instructions carefully, you can find the **best** printer for your needs.

TRUE OR FALSE STATEMENTS

Instructions: Read each statement and write **True** or **False** based on the reading.

Ingeniería en Desarrollo
de Software

TRUE-FALSE SECTION

1. Inkjet printers are more expensive than laser printers.
2. Laser printers are faster and more efficient for printing text documents.
3. Multifunction printers can only print and copy.
4. Inkjet printers are a good choice for printing colorful photos.
5. Wireless printers are always easier to set up than wired ones.

6. Laser printers usually require more frequent cartridge replacement than inkjet printers.
7. Some manuals are easier to follow because they include pictures and step-by-step instructions.
8. It is not important to read the manual before installing a printer.
9. Wireless printers can print from smartphones and tablets.
10. Choosing the right printer depends on your needs and how you plan to use it.

- inkjet printer
- laser printer
- multifunction printer
- toner
- setup guide
- wireless printer
- cartridge
- troubleshooting
- compact
- step-by-step

- A.** A machine that can print, scan, copy, and fax
- B.** The instruction booklet that comes with a device
- C.** A printer that sprays ink onto paper
- D.** The powder used by laser printers to print
- E.** A printer that uses laser technology to print quickly
- F.** A printer that connects without using cables
- G.** A container that holds ink or toner for printing
- H.** A section in a manual that helps solve problems
- I.** Small and easy to carry or store
- J.** Clear instructions given in order

DIRECTIONS: Match each printer-related term on the left with its correct definition on the right. Write the correct letter.

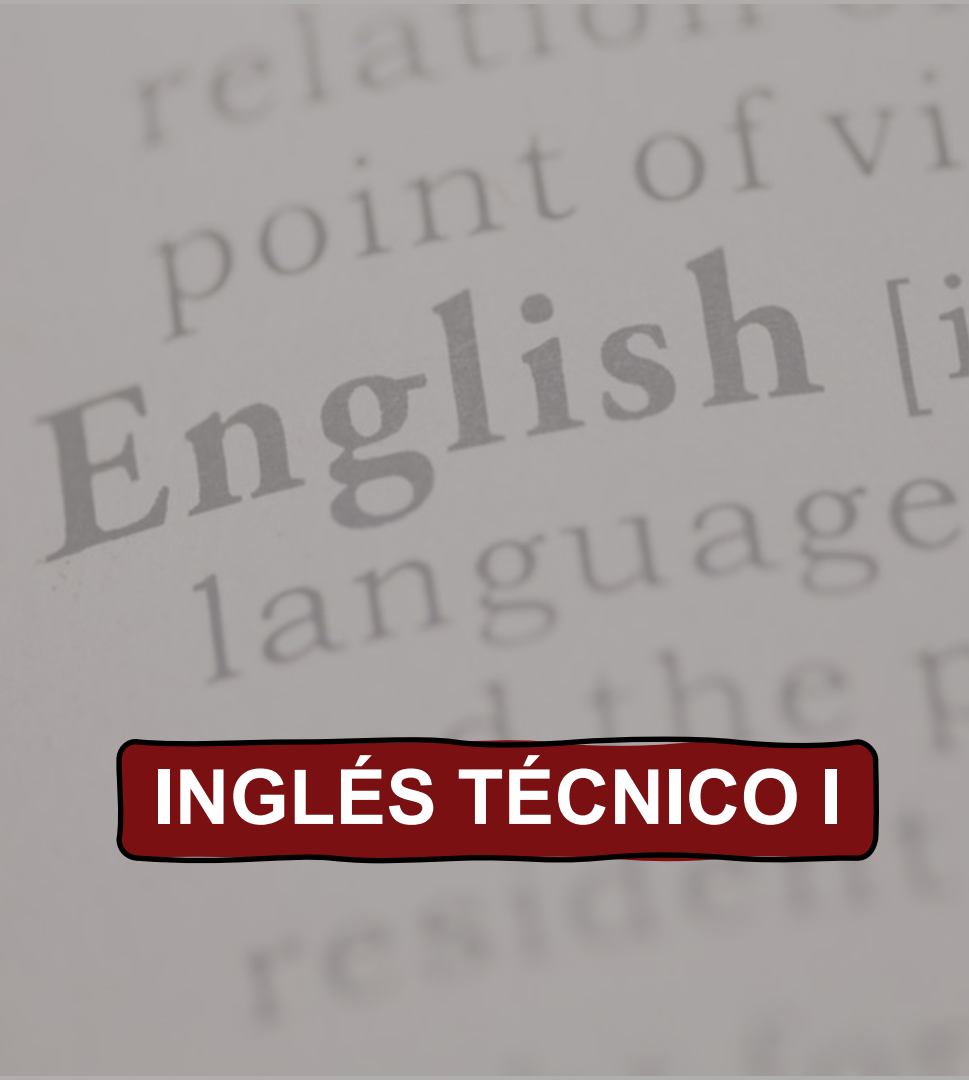

GAP-FILLING ACTIVITY

Complete the sentences with the correct word from the vocabulary list from the previous exercise. You can use each word once.

- If you want to print colorful photos at home, an _____ is a good choice.
- A _____ is often used in offices because it is fast and prints sharp text.
- The _____ is perfect for small spaces because it doesn't take up much room.
- A _____ lets you print, scan, copy, and sometimes fax all in one machine.
- The _____ helps you fix common problems with the printer.
- Before installing your printer, it's important to read the _____ to connect it properly.
- This type of printer uses _____ instead of ink.
- A _____ allows you to print from your phone or laptop without any cables.
- Make sure the ink _____ is full before starting to print a large document.
- The manual gives _____ instructions to help you install the printer easily.
